

Writing Proposal

The Pragmatic Programmers
<https://pragprog.com/>
proposals@pragprog.com

For more information on writing with us, please visit <https://pragprog.com/become-an-author/>.

If you write short-format, high-quality, technical content, we'd love to hear from you.

Complete the following form and email it to us at proposals@pragprog.com. Our author relations team will review your information and get back to you within seven to ten days.

About You

Name

Email Address

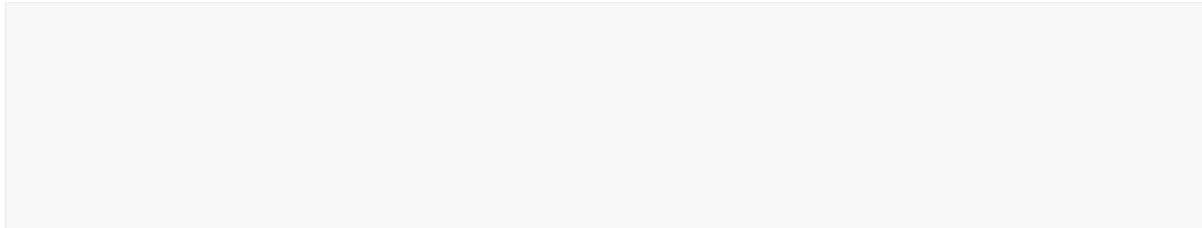

Bio

Rather than a full resume or CV, please tell us about your writing experience and your relationship to the topics you write about. If you write about the things you do as part of your job, please feel free to include that information as well.

About Your Writing

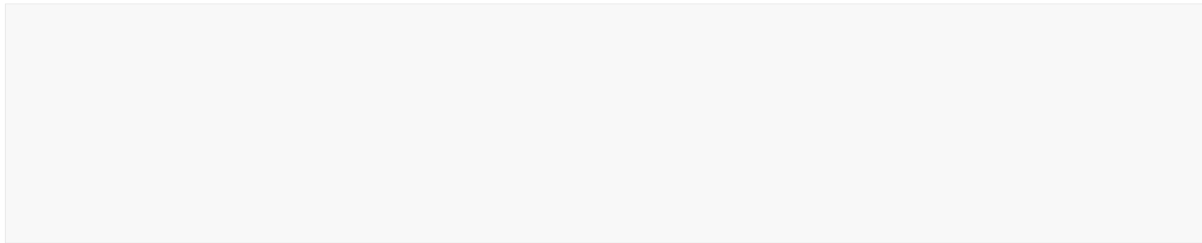

Topics

Tell us about the topics you have already written about or the ones you would like to write about with us. Why do you care about those topics in particular and what problems would your content solve for readers?

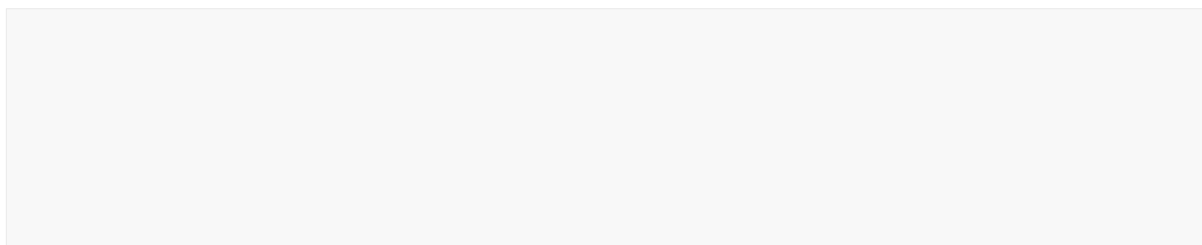

Formats

Let us know which publication formats you're interested in: blog posts, online tutorials, digital and print articles, short-format books (less than 50 pages), etc.

Promotional Ideas

Our authors take part in promotional efforts, and we'd like to know how you would promote your own work. Are you active on social media? Do you speak at conferences, local meetups or even to a small team at work? What would you personally be able to do to let people know about what you've written?

Writing Samples

Please either point us to publicly available examples of your writing or include a separate writing sample along with this form.

Thanks for choosing PragProg as your writing partner — we're looking forward to talking with you!
